

## The benefit of our “ Network Operation Center ”

Building a NOC facility entails not only a large investment, but adequate knowledge and a great deal of time and energy.

### By using our 'NOC' you gain:

- The option to pay as your operations grow
- Knowledge and support documentation sharing throughout your company
- Complete transparency on your system's performance
- Customer satisfaction

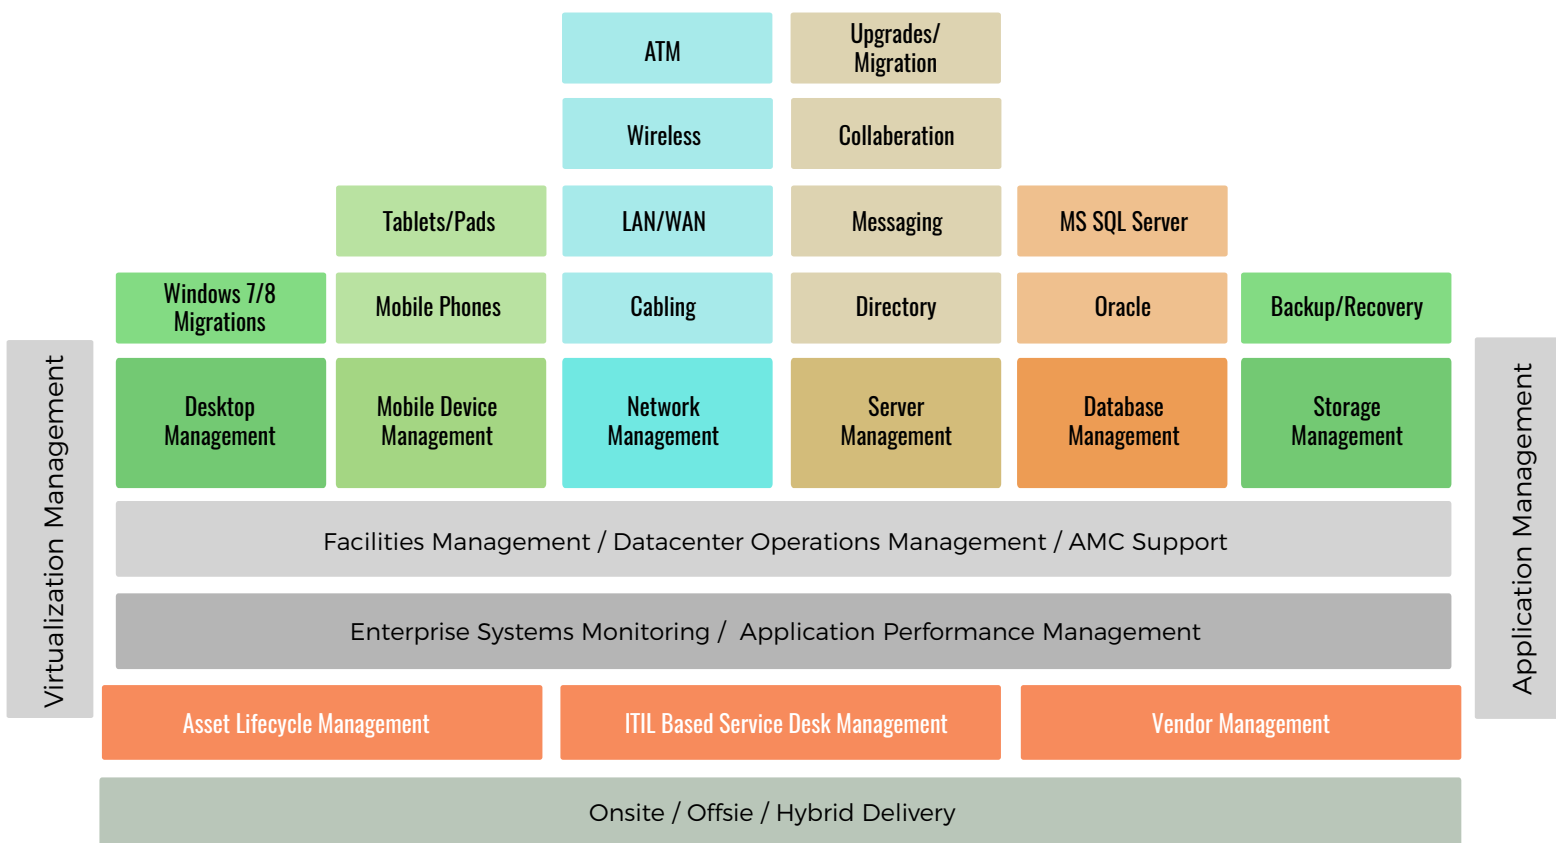

### Our 'NOC' monitors 2 levels of your business:

#### Infrastructure Level

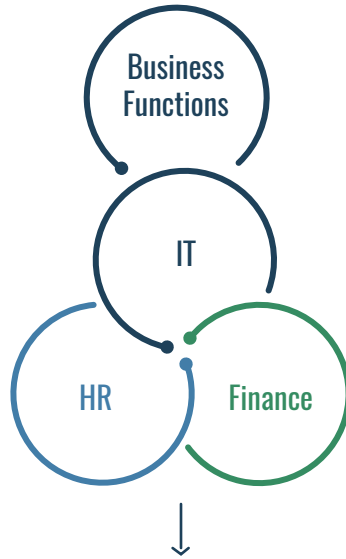

Public cloud , Private cloud and On-premise IT features, including storage and computing resources

#### Application Level

Complete application stack components, including front end, back end and database
