### eComPaaS

ECOMMERCE PLATFORM AS A SERVICE  
NEW DIGITAL NEED & NORM FOR YOUR **BUSINESS**

eCompass offers an environment for building e-commerce applications quickly. It gives you a high degree of flexibility and customization with replaceable parts of the framework code and bootstrapping to build and scale faster.

It incorporates robust workflows and tailor-made, reusable components and domain specific insights which are suitable for building virtually all kinds of online shops and e-commerce related(web) applications.

We employed a sturdy architectural model that can swiftly adapt changing business models with heavy use of interfaces and standard design patterns that are extensible by user written code.
