

# NEWSMINE

## *Insight.* *Innovation.* **Impact.**

September was a month of transformation at Skillmine, where strategic initiatives, innovative solutions, and compliance readiness took center stage. From advancing enterprise IT operations to enhancing analytics and identity management, the month showcased how technology, intelligence, and foresight combine to empower organizations.

Here's a closer look at the stories shaping September's impact.

### Top Highlights

#### *Momentum That Matters*

Strengthened presence in the government sector with large-scale IT Hardware & Facility Management services

Introduced new features in DataV and Auth to make platforms smarter, secure, and automation-ready

Rolled out customized identity solutions for enterprise customers to improve interoperability and control

Expanded market reach through a new channel partnership with Network Techlab

## Tech **Spotlight**

### ***DPDP Act Now Enforced.*** *Compliance is No Longer Optional*

**India's Digital Personal Data Protection (DPDP) Act, 2023** became fully enforceable on **September 28, 2025**, reshaping the way enterprises handle personal data. As highlighted in our recent blog, the stakes are high, **non-compliance could cost crores in penalties**, erode customer trust, and disrupt operations overnight.

But forward-looking organizations see this not as a burden, but as an opportunity. The Act is driving a fundamental shift where **data protection equals business trust**.

**Penalties are real**, monetary loss, brand damage, and compliance gaps can cripple businesses.

**Proactive compliance pays**, embedding governance and security frameworks, embedding governance and security frameworks builds resilience.

**Tools like COMPLYment** help enterprises stay audit-ready, automate compliance tasks, and reduce regulatory risks.

At Skillmine, we believe the DPDP Act is more than a regulatory checkbox, it is a **boardroom agenda**. Enterprises that align compliance with strategy will turn regulatory pressure into **trust, credibility, and growth**.

*Read our full blog on the DPDP Act to explore how your business can stay ahead.*

## New Wins

### Strategic Wins: Driving Growth Across Sectors

**On-boarded a renewable energy enterprise with complete SAP integration and sample dashboards, now at the implementation stage.**

- More than 15 KPIs are being built into DataV to support business and operational decisions.
- Dashboards enable interactive drilldowns, real-time monitoring, and actionable insights.

**Strategic partnership with the government sector** to deliver IT Hardware and Facility Management Services for datacenter and endpoint devices, further strengthening our enterprise-scale IT operations portfolio.

**Rolled out Customizable JWT Token Feature for a financial customer**, enabling admins to send Employee ID, Username, or Email as unique identifiers to apps, improving identity mapping, interoperability, and integration control.

### What's New in Skillmine DataV

*DataV Upgrades: Smarter, Dynamic, Decision-Focused*

- **Slicers** – Interactive filters that allow faster drill-down and analysis.
- **AI Insights** – Summaries of trends, prescriptive recommendations, and instant Q&A on business data.

These upgrades make DataV dashboards **more intuitive, dynamic, and decision focused**.

### What's New in Skillmine Auth

*Auth Enhancements: Secure, Automated, Enterprise-Ready*

**Skillmine Auth**

- **Windows MFA** – OS-level Multi-Factor Authentication for laptops, VDI, and RDP access. Defense against credential misuse, Uniform MFA across devices, Secured access to critical systems.
- **Smarter SSO Dashboard** – Simplified administration with downloadable reports, group management, and deeper usage analytics.
- **Office 365 Connector – Auto Provisioning** – Automated user creation, role-based license assignment, and compliance-ready integration.

These features enhance Skillmine Auth's role as a secure, automated, and enterprise-ready IDAM solution.

## Expanding Reach: Network Techlab Collaboration

Thrilled to welcome Network Techlab as Skillmine's Preferred Reseller Partner! Together, we'll expand Skillmine Auth & COMPLYment to empower enterprises with stronger security and compliance.
